Machine film

AmTopp division includes Inteplast Group BOPP Films, AmTopp Stretch Film, and AmTopp Concentrates. AmTopp manufactures machine film, hand film and specialty films for our customers.

“EL” Series Thin Gauge Machine Film

AMTOPP stretch wrap is an engineered machine film that offers the utmost performance at light gauge. Designed to provide unsurpassed cost advantage, LOADSTAR Plus renders the extra strength and stretch needed for any high-speed, fully automated stretch wrapping equipment. The film’s exceptional puncture, One Side Cling / One Side No Cling, and quiet unwind make it easy to work with, and the excellent clarity allows bar-code scanning at any stage in any automatic handling system.

AmTopp stretch machine film is a superior linear low-density stretch film, produced in a wide variety of gauges, thickness and widths. The films can be used on all wrapping systems.

AmTopp stretch machine film provides a low-cost solution to wrap pallets and durable environmental protection for loads. Our multiple layered films possess excellent strength, puncture resistance and stretch performance, as well as clarity and quiet unwind.

Inteplast's stretch machine film is engineered for all general purpose uses and is excellent for stretch bundling applications. Machine stretch film is also available in one-sided cling and differential cling. We have films for high speed equipment and applications that require film to pre-stretch over 250%.

Features:

- Unsurpassed pre-stretch levels
- Premium metallocene multiple layered structure
- Excellent down-gauge film
- Superior load holding force
- One Side Cling / One Side No Cling
- Outstanding puncture and tear resistance
- Easy and quick release for high speed wrappers
- Clear optics
- Quiet unwind
- High tensile strength
- Lowest unit cost = Best economic value
- ISO 9001:2008 Certified

AmTopp APEX Engineered Machine Film | APEX Series

Utilizing a base of leading Metallocene resins, Apex offers savings through superior performance. It is a very machine friendly film that replaces thicker, obsolete films. Apex redefines the industry standard gauge. The AM series features a 1 Side Cling / 1 Side No Cling skin package.

Features

- One Side Cling / One Side No Cling
- Load unitizing Strength
- Toughness
- Puncture resistance
- Excellent Clarity

- ISO 9001:2008 Certified

AmTopp X-Treme Machine Film | EH Series

Inteplast's technologically advanced, multiple-layered structured cast film has superior strength and stretch, allowing maximum load-holding force and minimum film usage.

AmTopp X-Treme film features a 1 Side Cling / 1 Side No Cling skin package, making the film ideal for many one-sided cling applications. The film's quiet unwind and clarity

makes AmTopp X-Treme stretch film the ideal choice in any automated operation environment.

X-Treme stretch film is a High Performance Plus machine film. Designed for use on high-speed automatic stretch wrapping equipment, the AmTopp X-Treme EH film renders the extra stretch and strength needed in fully automated operations. In addition, the film's high clarity allows bar-code scanning at any stage of handling.

Features

- Newest multiple layered structure
- Excellent stretch
- High tensile strength
- Superior load holding force
- One side cling/one side no cling
- Outstanding puncture resistance
- Exceptional tear resistance
- Great optical clarity for electronic scanning
- ISO 9001:2008 Certified

AMTOPP X-TREME™ stretch wrap is a High Performance machine wrap. Designed for use on high-speed automatic stretch wrapping equipment, the AMTOPP X-TREME™ “EH” film renders the extra stretch and strength needed for fully automated operations. The film’s one side cling/one side no cling and quiet unwind make it easy to work with, and the excellent clarity allows bar-code scanning at any stage in any automatic handling system.

AmTopp High-Performance Machine Film | EP Series

AmTopp High-Performance Machine Film is engineered for all general purpose applications. This Inteplast stretch film offers excellent puncture and tear resistance, with high clarity and stretch.

AmTopp High Performance Machine Film performs up to 250% maximum pre-stretch depending on the application. It features an differential cling package, with superior inside and minimal outside cling. This cast, co-extruded film is excellent for use on conventional machinery on all load types, including both hot and cold environments. AmTopp High Performance EP film is also suitable for stretch bundling applications.

Features

- High elongation
- Excellent puncture and tear resistance
- Very good holding force
- Suitable for a wide range of General applications
- Performs up to 250% maximum pre-stretch depending on the application.

- ISO 9001:2000 Certified

AmTopp UVI High-Performance Machine Film | EU Series

AmTopp UVI High-Performance Machine Film is designed to inhibit degradation caused by ultraviolet rays on product loads. AmTopp UVI High-Performance Machine Film can be used for mulch, brick and other industry products that are stored outdoors.

Inteplast also offers colored stretch film. Please contact us for inventory availability.

Features

- “ET/HT” Series - Tinted General Purpose Films
- “EU” Series - Ultraviolet Protective Film
- “EXB”Series - Designed exclusivley for PET Bottling Industrty
- ISO 9001:2000 Certified

Hand Film

AmTopp cast hand film offers a clear, glossy appearance, superior stiffness and consistent differential cling. Our hand film exhibits excellent tensile strength and stretch, combined with exceptional puncture and tear resistance.

AmTopp stretch hand film is excellent for use in roping, bundling, and spiral applications. It's designed to handle regular loads, as well as B and C type loads. AmTopp stretch hand film also offers enormous down gauge opportunities, which can substantially reduce costs.

AmTopp Stiff Hand Film | HS Series

AmTopp Micron Stiff Hand Film combines reduced neck down performance while maintaining excellent puncture resistance and yield.

Features

- Outstanding strength in the transverse direction
- Uniform gauge profile
- Excellent puncture resistance
- Great optical clarity for electronic scanning
- Reduced unwind noise
- Ideally suited for difficult loads
- ISO 9001:2000 Certified

AmTopp Performance Hand Film | HC Series

As a high performance hand film, the “HC” series film is designed to securely unitize irregularly shaped and difficult-to-wrap loads. With cling on both sides, this three-layer, cast, co-extruded film offers superior holding force for even the toughest loads.

Features

- Retains a high holding force
- High tensile strength and stretch
- Excellent stretch on difficult loads
- Consistent quality and gauge control
- Excellent value for your film dollar
- Dependable performance
- ISO 9001:2000 Certified
